Submittal Requirements

To obtain a grading permit, please submit the completed application to Springfield City Hall along with the required fee.

After submitting your application, upload your grading project to Omaha's Permixon software for review. Once your application has been received by Springfield City Hall and the fee has been paid, upload a copy of your permit receipt to Permixon to verify payment to the local entity.

The City's engineer, Olsson, will review the application and project plans through Permixon.

The City of Springfield is a member of the Southern Sarpy Watershed Partnership, which contracts with JEO Consulting Group to conduct stormwater inspections.

If you have questions about the grading permit process, please contact Springfield City Hall at 402-253-2204.
